

BENEFIT DISTRIBUTION MADE EASY

Prefix is a powerful, affordable, and flexible platform that accelerates benefit eligibility determination and distribution making it easier for everyone.

Prefix automates data collection and analysis. Forget the paper. We provide user-friendly solutions for pre-screening, application, review, adjudication, detailed fund and benefit distribution tracking, and compliance reporting.

Our solution is an end-to-end customizable platform that maximizes your review and distribution efficiency thus enabling you to serve more people at lower cost.

Prefix engages the consumer. Prefix empowers organizations to implement modern eligibility solutions with multi-channel, mobile consumer engagement (SMS, email, voice, browser) that are easy to use. Prefix is built to respect the benefit seeker and their time.

Prefix scales across benefit programs in one configurable platform. We configure Prefix to support new benefit programs for your organization faster than anyone. One platform for all your programs.

One customer can house as many eligibility processes as they need all in one place that will be familiar to the consumer, the reviewer, the case worker, and financial management at an agency.

Prefix makes compliance and reporting easier. Prefix is built to track data to the most specific degree possible. Combine this with our reporting tools and you can create compliance and managerial reporting with ease.

Prefix implements with any program. Prefix is built to be configured across benefit programs with a wide variety of options that can be implemented fast.

Prefix is affordable. Prefix is built to allow for rapid customization and deployment.

"A game changer for all of us working to disperse assistance funds."

-Arizona NGO
